Structure :

The image shows two chemical structures. On the left is the structure of (-)-MK 801, a complex polycyclic molecule with a benzene ring fused to a five-membered ring containing a nitrogen atom, which is further fused to another benzene ring. On the right is the structure of a precursor, a linear chain with a carboxylic acid group (COOH) at one end, a double bond (C=C), and an aldehyde group (CHO) at the other end.

Information represents the product specifications. Batch specific analytical results are provided on each certificate of analysis.
